LIMA, OHIO, TUESDAY, SEPTEMBER 14, 1897.

PRICE THREE CENTS.

REQUESTS FOR TROOPS.

General Gobin Orders Out the Philadelphia Company.

TROUBLE AT ECKLEY MINES.

The Soldiers Ride Across the Mountains a Distance of Eighty Miles to the Scene of the Latest Disturbance.

Hazleton, Pa., Sept. 14.—Trouble has broken out at Cox Brothers' colliery at Eckley. Two hundred miners at Buck mountain, which is about 3 miles from Eckley, went on strike and started toward the Eckley mine. The superintendent of the Eckley colliery telegraphed to General Gobin for troops, but later in the day the request was withdrawn, the superintendent notifying the general that the striking miners had stopped marching.

At 4 p. m. General Gobin received another telegram stating that these miners had again assembled, had marched on the Eckley mines and forced the miners to quit work. It was stated in the dispatch that the miners had been roughly handled by the strikers.

General Gobin has ordered the City troop of Philadelphia to go to the scene of the disturbance. The start was made just after daybreak. The troops rode across the mountains, a distance of 18 miles, to Eckley. Eckley is a small mining village and lies in a valley. There are a number of collieries there, and fears have been entertained for the past 48 hours that trouble would break out, as the men had been acting very ugly.

The situation in the Hazleton district is one of unrest. All the collieries in this district are apprehensive of danger. Requests have been pouring in to General Gobin from the various mines asking that he send troops to the places in order to prevent any possible outbreak. The general states that he will not send troops to any point unless an outbreak does occur.

The general declines to give the names of the collieries, as all the men in them are still at work. The operators, however, are apprehensive of a strike and want to be prepared for any emergency.

Two mine superintendents in this immediate vicinity have asked General Gobin to place guards around their houses. This will be done.

Two actresses who are playing in a theater here overheard a conversation on the main street of Hazleton. They were passing a group of miners and overheard one of them remark: "I've got the material, but I don't know how to mix the damned stuff. If I did I would blow them up tonight."

This information was sent to General Gobin, and as he had already heard mutterings from other sources he decided to send guards to the houses of the two mine superintendents.

STORM AT GALVESTON.

Galveston, Sept. 14.—At an early hour in the morning the wind at Galveston gained a velocity of 37 miles an hour. The people had been forewarned of the expected storm and things along the dock were in good shape. A few small ships were sunk and two barges were driven ashore on the flats west of the wharves. They were pulled off by a tug. The only building to suffer was the Olympia, the big pavilion at the Gulf side. Two sections of the circular roof were carried away.

Back at Washington.

Washington, Sept. 14.—President McKinley returned to Washington from Somerset, Pa. The special train which carried the presidential party consisted of President Cullen's private car "Baltimore," the Pullman chair car "Abigail," which served as a reception car at the various stopping places en route, and a combination car in the lead.

A Severe Storm.

Aberdeen, S. D., Sept. 14.—A severe storm of a cyclonic formation struck here. Heavy rain and some hail fell breaking windows and doing considerable damage. Several barns were moved from their foundations by the wind. Reports from the country indicate damage to grain in shock and stacks by being blown down and thoroughly soaked by rain.

Want to Aid Hanna.

Cleveland, Sept. 14.—A formal tender of the services of the National Republican league to assist in his election to the United States senate was made to Hon. M. A. Hanna by John J. Sullivan and Melville Hayes, acting as a committee for the executive committee of the organization. The two gentlemen were received by Mr. Hanna at his office.

Another One Lynched.

Macon, Sept. 14.—Charles Gibson shot and killed John Smith. The murderer resisted arrest until mortally wounded. Then he confessed to having outraged Miss Chapman a few nights ago. He was strung up before life was extinct.

Lutheran Synod.

Aubury Park, N. J., Sept. 14.—The national Evangelical Lutheran synod began a session in the auditorium here.

BELCHAZZAR'S FEAST—UP TO DATE.

"In the night as they reveled,
In the royal palace hall;
They were seized with consternation,
At the writing on the wall."

which will continue for a week. There are about 250 delegates present from all parts of the country.

Warning Against Cocaine.
Columbus, O., Sept. 14.—Commissioner Blackburn of the dairy and food department has issued a warning to the druggists of this state against patent medicines whose chief ingredient is cocaine.

Found No Yellow Fever.
Jackson, Miss., Sept. 14.—Dr. J. H. Purnell, the Vicksburg yellow fever expert, who, after an investigation at Edwards, Miss., found 26 cases of dengue fever to exist there, proceeded to Pelahatchie later in the night and reports that all the sickness in Pelahatchie was malarial fever, and that there is no danger from that point.

Slump in Wheat.
New York, Sept. 14.—The decline in wheat left prices below the highest point of last week and 2 cents lower than they closed on Saturday. Speculative sales ran up to 4,605,000 bushels, which represents a moderate day's business. Weakness was encouraged by the million bushel increase in the visible supply, a fair addition to the local stocks, heaviness in all foreign markets and light export demand.

A Fast Mile.
Cincinnati, Sept. 14.—Another fast mile was run at Oakley. Byron McClelland beat a high-class field in the fourth race in 1:39 3/4, after galloping all the way.

ON THE DIAMOND.

Results of the National Game on Various Diamonds—The Standing.

STILL ANOTHER CASE.

Edward McGinty, In an Up-town Residence Stricken.

YELLOW JACK SPREADING.

It is claimed he contracted the disease while visiting people who were sick with fever at Ocean Springs.

New Orleans, Sept. 14.—The announcement of the ninth case of yellow fever in New Orleans, including the Gelpi death, was officially made by the board of health.

It is probable that another case will be added to the list, exhausting the serious suspicious cases now under investigation.

The ninth case is Edward McGinty, a young man living immediately opposite a residence up town where a child died from the fever that had been prevailing at Ocean Springs.

McGinty had been a visitor to the family during their residence on the Mississippi coast, and since their return to the city had been a constant visitor. It is therefore believed that McGinty contracted the disease from the sick child.

Members of the board of health have been in close attendance upon the case and completed their diagnosis. As soon as they had done so the board of health took charge of the premises, quarantined the inmates, made liberal application of disinfectants in the neighborhood and took all necessary steps to prevent a spread of the disease.

This is the first case reported up town, all other cases being in the lower section, and in this instance, as in all others, the origin of the case has been traced to Ocean Springs.

The suspicious case referred to above is that of a physician who had been in attendance upon some of the patients at Ocean Springs.

The announcement of one more case, and probably another, has made no change in the state of the public mind. There is still an absence of excitement, and while there are occasional departures from the city, there has been no general exodus.

Neither the experts nor the board of health are surprised by the discoveries. They anticipate there will be other sporadic cases owing to the number of people who managed to reach New Orleans before the quarantine against Ocean Springs went into effect. There is no lack of confidence on the part of the board in their ability to restrict each sporadic case, and the only result of these new cases is to add greatly to the labors of the sanitary forces of the board. Additional doctors of experience are being added to the staff of the board of health in order that the strictest attention may be given to each residence in which cases of fever have appeared.

Atlanta promises to be the refuge of all people living in New Orleans and along the coast who desire to get away.

Of the cities of the south in danger of infection Atlanta is the only one that has refused to quarantine and that has invited all refugees within her gates.

The announcement at Biloxi that a special train will go to Atlanta has been read with delight by many on the coast, and it is probable that a large number on the coast will take advantage of the opportunity to get out of the infected region.

Surgeon Wasdin Ill.

Washington, Sept. 14.—Surgeon Wasdin, who has been at Ocean Springs for some time, was taken ill. This information came from Surgeon Murray, who did not state the nature of the illness, but Dr. Wyman supposes it to be yellow fever. Surgeon Murray has engaged a nurse and will care for him. Dr. Wasdin has been actively engaged since the outbreak of yellow fever at Ocean Springs, and was present at the first autopsy at which the conclusion was reached that the disease was yellow jack.

Four Deaths at Barkley.

New Orleans, Sept. 14.—Dr. Carter, of the Marine Hospital service, returned to Ocean Springs from Barkley and reports a serious condition there. Barkley is a little postoffice seven miles northeast of the detention camp. Dr. Carter reports eight cases of yellow fever at this point out of a population of 25 souls. There have been four deaths in ten days, the last occurring on Saturday night, and other deaths are momentarily expected. The fever was imported from Ocean Springs.

Helena Sets the Pace.

Helena, Ark., Sept. 14.—This place has set a pace which all river towns are likely to follow, and which will probably effect a suspension of river traffic until the present scare dies out. The board of health decided that no boat from south of Vicksburg should be allowed to land at this port or any point within the quarantine limits of five miles of the corporate limits.

Excitement at Jackson.

Jackson, Miss., Sept. 14.—Excitement is at fever heat in this city over the yellow fever scare, caused almost entirely by the presence of 30 cases of dengue fever at Edwards, 25 miles west of here. Many people are fleeing to the surrounding country. The wagon and railroads leading into town are being closed.

Letter Received.

New York, Sept. 14.—Seth Low's letter accepting the Citizens union nomination for mayor was received.

To Annul the Charter.

Managua, Nicaragua, Sept. 14.—The Nicaraguan congress has appointed a committee to investigate the charter and affairs of the London Bank of Central America, limited, of Managua, with the object of annulling its charter, if possible.

Australian Steamship Ashore.

Port Eads, La., Sept. 14.—The Australian steamship Gottenreid Schenker, Captain Nicolo Gotto, from New Orleans, arrived here via Genoa and Newport News, is ashore west of the jetty.

USED THEIR MACHETES

Insurgents Kill Forty Guerillas For Resistance.

AN UNFORTUNATE MISTAKE.

The Red Cross Flag Over the Hospital, Thought to Be a Parliamentary Emblem, and the Building Is Bombarded.

Havana, Sept. 14.—Further details of the capture of the Victoria de las Tunas, province of Santiago de Cuba, say that the insurgents, after capturing the town, killed with the machete 40 guerillas for having made a stubborn resistance.

It is explained that the Spanish hoisted the Red Cross flag over the hospital of Victoria de las Tunas and that the insurgents, mistaking it for a parliamentary flag, sent an officer in that direction. The Spaniards claim that the insurgent commander, General Calixto Garcia, did not respect the flag or the hospital and bombarded the building, killing or wounding 50 sick men.

The latest advices from Spanish sources say the insurgents lost over 200 killed during the fighting about Victoria de las Tunas and that among them was General Menocal.

Four Spanish officers and eight soldiers who were among those who surrendered to the insurgents have arrived at Ceuto.

More Social Democracy.

Denver, Sept. 14.—At a mass meeting under the auspices of the Painters and Decorators' union to protest against government by injunction J. R. Hogan, organizer for Debs' Social Democracy in this district, created a sensation by saying: "In this country everything is for sale, from a man's conscience to a woman's virtue." Rev. T. H. Malone, one of the previous speakers, entered an emphatic protest against this statement and left the hall, followed by ex-Congressman Lefe Ponce and a majority of the audience. Mr. Hogan then delivered a violent tirade against Father Malone.

Will Be Returned.

Washington, Sept. 14.—The supervisors of Kossuth county, Ia., discovered that Karl Kruger and wife, two Germans who immigrated to this country, were public charges of that county. The secretary of the treasury investigated the matter and found the report to be true, and directed their return to Germany. This will be done at the expense of the immigration fund.

CENTENNIAL CELEBRATION.

Founding of Franklinton Is Observed by Columbus Citizens.

Columbus, O., Sept. 14.—The Franklinton centennial celebration opened under most favorable conditions. The celebration will continue three days, and an elaborate program has been arranged for each day.

Franklinton was founded by Lucas Sullivant, and was the first settlement in now the capital city of Ohio, the locality being on the west side of the Scioto river. The centennial grounds are located near the site of old Camp Chase.

It contains a mixture of the ancient and modern, such as a log cabin, bicycle race track, etc.

Many strangers are in the city to attend the celebration, especially former old citizens who are now living in other states.

Columbus is honored by the presence of Colonel Joseph Sullivant of Kansas and five members of the Sullivant family, who will remain here during the celebration. They are guests of Mrs. Hopkins on Miami street. Colonel Sullivant is a son of the late Michael L. Sullivant, and a grandson of Lucas Sullivant, the founder of Franklinton. He was born at the old Sullivant homestead in Franklinton.

The program of the first day began by firing a national salute at 5 a. m. After the speakers and distinguished guests had been escorted to the centennial grounds the regular platform exercises began at 10 a. m. Hon. D. J. Clahane acted as chairman and made a brief speech, after a children's chorus had beautifully rendered "America" and Rev. E. D. Morris had invoked the Divine blessing.

Governor Bushnell responded on behalf of the state and Mayor Black on behalf of the city. General John Beatty then made an interesting historical address, the morning exercises closing with music by the chorus.

The program for the rest of the day follows: 2 p. m.—Aquatic sports, consisting of swimming races, tub races, boat races, tugs of war and scientific swimming by Professor Richard Owens, Roman hippodrome, trick elephant, games and foot races.

8 p. m.—Historic tableaux, aerial acts, flying and balancing, fireworks.

Will Tour the Country.

Chicago, Sept. 14.—Arnold Luettger, with the famous center vat and his father's four Great Dane dogs, is planning to tour the country at the conclusion of the sausage maker's trial and execution.

Royal makes the best paste, whatevver and collations.

ROYAL
BAKING
POWDER
Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

The Portland Is Off.

Seattle, Wash., Sept. 14.—The steamship Portland got away for St. Michael's at noon Sunday with a big cargo, consisting principally of machinery for four steamers which are to be constructed by Moran Brothers at St. Michael's this winter. One steel steamer, the John C. Blair, was complete. On the Portland's forward deck was a Maxim rapid-firing gun capable of mowing down an army of privates. It will fire 300 cartridges, weighing one pound, per minute.

Notorious Anarchist Coming.

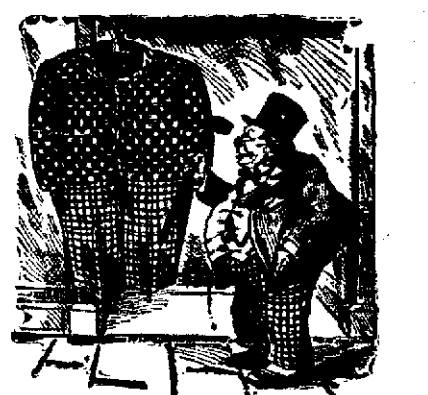

Paris, Sept. 14.—Louise Michel, the notorious French anarchist, is going to the United States in October. She will be accompanied by prominent English anarchists and they will undertake a speechmaking tour in America for the purpose of advancing the anarchist propaganda.

The Niagara Floated.

Havana, Sept. 14.—The Ward line steamer Niagara, which left New York Aug. 26 last, via Nassau, for Guantanamo, via Cienfuegos, etc., and which went ashore off the harbor of Santiago de Cuba last Thursday, has been floated. The vessel was not badly damaged.

The Weather.

For West Virginia—Rain continued high temperature; southerly winds.
For Ohio—Generally fair, except showers on the lake; probably cooler; variable winds.

BONES IN PICTURES.

RAY DISCLOSES SKELETONS IN ORDINARY PHOTOGRAPHS.

Remarkable Discovery of a Baltimore Physician—Doctors May Now Diagnose Cases of Distant Pathology—The Revelation Was Purely Accidental.

Dr. Robert Xavier Giering, a well known young physician of Baltimore, claims to have made a remarkable discovery by means of the Roentgen rays.

Dr. Giering states that by means of the X ray he can develop any ordinary photograph of a human being, showing plainly all the internal organs, and the bony structure of the body, of the original of the photograph. In other words, the doctor maintains that an ordinary photograph is not only a likeness of the outward appearance of the individual, but that it contains a reproduction of everything in the body, and that all that is necessary to make all visible to the naked eye is to put the photograph through a series of developments under the X ray. Dr. Giering was busily engaged in experimenting in his office when questioned on the subject of his discovery. He said he was developing photographs of various persons with the object of reproducing their internal organs.

In speaking of his investigations he said:

"Of course I cannot disclose the process which I employ, but I do not mind relating how I made the discovery. Six months ago I was employed as a lecturer by the Edison company of New York to give illustrated lectures on the Roentgen rays. I went to most of the southern and middle states in my work and have been constantly engaged in experimenting with the X rays.

"About two weeks ago I was testing a new apparatus in my office and made an X ray photograph of my hand. I placed a plate on the table directly under my apparatus. It was necessary in order to produce a clear picture to place some article between my hand and the plate. For this purpose I generally used a piece of cardboard, but on this occasion I was unable to find it and instead picked up a photograph from a pile of pictures that lay on the table. While developing the photograph later on I was interrupted and went away from my office for several hours.

"When I returned, I proceeded with the development of the picture of my hand, and to my astonishment I found that across it was the picture of a man's body. It never occurred to me that I had reproduced the picture on the photograph which I had used in place of the piece of cardboard, and as my curiosity was thoroughly aroused I proceeded anxiously with the development of the picture. To my further astonishment I found that the picture of the form on my hand was being revealed perfectly naked. In the course of half an hour I had developed the strange picture sufficiently to see every rib in the body.

"I had not up to that time considered whose photograph I had used, but this was made clear to me when I noticed a bullet wound in the right arm. I saw at once that I had used one of my own pictures, and was astounded to find that the negative thus produced was my own body, absolutely naked. I made another negative from this, and the second negative showed all the outer tissues of the body. Continuing, I made a third negative, and this showed plainly the heart, lungs, liver and kidneys. In this negative was also plainly shown the bullet lodged in my right arm, where I had already seen the mark. More than this, even the small arteries were visible.

"When I had succeeded thus far, I concluded that I had made a great discovery by mere accident, a discovery which establishes a great fact hitherto unknown to scientific men—namely, that a photograph is a thorough and through likeness of the body of the individual, and that all that is needed to display every portion of the body of the body to the naked eye is to put the picture through a series of developments under a powerful light. It must be considered that the X ray is immeasurably stronger than any other light we know of. I have no doubt that the result of my experiment will lead others to make further investigations, which may lead to greater and more startling developments. The benefits of this discovery to the medical fraternity and to men of science generally can be readily appreciated. A man residing far from a physician can now send in his photograph, have it put through the course of development and when the last negative is reached, showing the internal organs, the physician can proceed to develop each organ separately and can finally ascertain whether they are diseased or not."—New York Journal.

Interesting Railroad Statistics.

Poor's Manual for the current year, the thirtieth annual number, has just been issued. In the preface are the usual tables of statistics of the operations of the railroads of the United States. They show that there was an increase of only 1,738 in the number of miles operated. Compared with the previous year the tons of freight moved increased 2.40 per cent, and the freight mileage 6 per cent. The number of passengers carried increased 1.01 per cent, and the passenger mileage 3.46 per cent. The earnings from freight increased 3.58 per cent, from passengers 1.64 per cent, and miscellaneous earnings increased 2.52 per cent, making the increase in gross earnings 3.04 per cent. The net earnings increased 3.32 per cent. The earnings per ton mile were 0.821 cent, against 0.809 cent, a decrease of 2.15 per cent. The share capital increased 3.7 per cent, and the funded debt decreased 3.17 per cent, these changes being the result of reorganizations.

FRANK McLAUGHLIN'S START

A Story About the Late Publisher of the Philadelphia Times.

Upon one occasion in 1881—Frank McLaughlin was then only 23 years of age—it happened that the foreman and his first assistant were absent and that John McLaughlin was at home ill. Young Frank McLaughlin was then the fastest setter of type in the office. At the dinner hour on the day in question, and when every "stick" was lying at rest, Abraham Barker, the father of the well known Wharton Barker and himself then one of the very few brokers in this city, walked in to The Ledger job printing office with a stock list—an enumeration of the figures of the financial market of the day—and expressed a desire to have it put in type and 50 copies struck off for immediate use.

By reason of the conditions described, there was no one in authority to attend him, and Frank McLaughlin stepped forward and received the order. The stock list of that time, unlike the complex and almost cumbersome affair of the present day, was an abbreviated statement, and two men could easily place it in type within one-quarter of an hour. When Mr. Barker asked the young printer if he would undertake the task, the latter answered with cheerful alacrity, "Certainly!" Cutting the list in two and turning to one of the oldest compositors in the office, he said, "Here, Jim, take one of these 'takes,' and I'll take the other, and we'll rush her through in a jiffy."

The man addressed walked forward with a frown on his face, and after he had taken the slip of paper and was moving back to his case he muttered some half understood words about "giving a fellow a chance to eat his dinner."

"Never mind, Jim," said young McLaughlin, walking quickly after him and taking the copy from his hands. "I'll do the job myself." During these proceedings Abraham Barker never left the office, nor did he until the work had been completed. He leaned quietly against a make up table, and reading a copy of the New York Tribune he carried, was apparently oblivious to all that was going on about him. Young McLaughlin's fingers flew as he picked up the little pieces of metal. In less than half an hour he had the stock list in type, revised and 50 copies struck off. He handed them to Mr. Barker with an apology for keeping him waiting. "What! Done already!" said the broker, and, with a simple "Thank you!" he left the office.

The following morning the young printer was surprised by receiving a note from the customer of the day before requesting him to call at his office. He did so. "I heard everything that took place in The Ledger office yesterday," said the financier, "and fully appreciate your conduct. I would like you to print the stock list for me every day for one month, and I'll pay you \$500 for the work."

"But it is not worth that much," answered the printer. "It is worth that much to me to have it done as you did it yesterday," was the reply. That was Frank McLaughlin's first work for himself—his first from an employer who paid him a weekly wage. At the expiration of the month the contract was extended to three times that period, and then to 12 months, with an annual recompense of \$6,000. Bear in mind that this was accomplished by a young man at a time when journeyman printers were receiving about \$10 weekly, and only in extraordinary instances earning \$1 or \$2 beyond that sum.—Philadelphia Times.

Osprey Plumes.

Speaking of osprey plumes an English tourist says: "I have seen the ground covered with these white plumes round many inland lakes in India at certain seasons, and picked up handfuls and sometimes found them lying in quantities under trees on which the birds have built. All over India this is the case I believe. My experience was in the Punjab, but I could show a bunch of ospreys picked up under a tree in a Rajputana by my daughter. All over India every bit of water is covered with these white aigrets.

Hindoo Birth Customs.

When a Hindoo child is born, many ceremonies are gone through with priests and astrologers, and then "in the first, third, fifth or any odd year they (the parents) generally go to a certain fair, and in an auspicious time and near a temple of a god have the child shaved for the first time." On reaching man's estate most Hindoos keep only a cue on the top of their heads and shave the rest of it.

Splitting a Bank Note.

"Splitting" a bank note consists of dividing the bill in two so that one-half consists of the face of the bill and the other half of the back only. This sounds like an impossible feat, but secret service officers say that it can be done, although the method is a government secret.

Biliousness

Is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. Then follow dizziness, headache, nausea, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, cleanse the liver, cure headache, dizziness, constipation, etc. 25 cents. Sold by all druggists. The only Pills to take with Hood's Sarsaparilla.

Hood's Pills

the "Johnny" said.

Not long ago an enterprising showman ran a "cycloorama" in Fort Worth, Tex. This "cycloorama" showed with remarkable fidelity the battle of Chickamauga. A truly built Federal veteran, with an empty sleeve pinned across his breast and a wand in his remaining hand, pointed out the noted generals and main incidents of the combat. There was an ex-Confederate reunion at Dallas, 30 miles away, and one afternoon a former "Johnny" went to Fort Worth and took in the show. He was loaded to the guards with corn whiskey and forced to go very slowly around the tents, but his heart was at peace with all the world. He listened to the talk for awhile and then approached the man with the wand. "Podner," he said, "was you at the first Manassas?" "Nope," said the Federal. "Was you at Chickamauga?" "Yep," "Podner, we won the first Manassas." "Yep." "An we los' Chickamauga?" "Yep." "An you was not at th' first Manassas?" "Nope, I told you." "An you was at Chickamauga?" "Yep, I told you." "Podner, I've seen 500,000 of you fellows. You was all at Chickamauga an some of you was at th' first Manassas. At th' first Manassas, podner, I think we killed every one of you."—Chicago Times-Herald.

Shop In Society.

Dollie Footline—No, you will never catch me again going out to supper with an editor.
Chollie Headlight—He wasn't—aw—broke?
"I don't know whether he was or not, but he ran a blue pencil through about half my order."—Indianapolis Journal.

Correct.

The pupils in a school were asked to give in writing the difference between a biped and a quadruped. One boy gave the following: "A biped has two legs and a quadruped has four legs, therefore the difference between a biped and a quadruped is two legs."—Tit-Bits.

Enough Said.

"Confidentially," said the family friend, "tell me, does your husband possess good judgment?"
"Well," said she, "I am his wife."—New York Journal.

Spectral Illusions.

People who are troubled with spectral illusions and with illusions of other senses, hearing most notably, are told by science that they are simply the subjects of a reversion of the process whereby ordinary sensations from the outer world are transmitted to and registered by the brain—in other words, when the brain centers project forward on to the receptive parts of eye and ear the individual becomes conscious of sights and sounds which have no external or objective existence at all. The ghosts of sights and sounds, which trouble us are all manufactured on the premises. The only specters which can affect us at all—pace the spiritualists and certain distinguished literateurs—come from the inside of our own heads.—Sketch.

Practice Economy

In buying medicine as in other matters. It is economy to get Hood's Sarsaparilla because there is more medicinal value in Hood's Sarsaparilla than in any other. Every bottle of Hood's Sarsaparilla contains 100 doses and will average, taken according to directions, to last a month, while others last but a fortnight.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Easy yet efficient.

An Opening.

First Summer Boarder—Pity there isn't a restaurant here.
Second Summer Boarder—Why, this village is too small to support a restaurant.
First Summer Boarder—Oh, I don't know. I think the boarders would patronize it between meals.—Puck.

Catarrh, Hay Fever.

Kill the Catarrh microbes and you cure Catarrh. These parasites nest deep in the catarrh tissues and folds of the olfactory membrane, and are difficult to reach and kill; but Brazilian Balm will utterly destroy them if used persistently as directed. It also destroys the Hay Fever germ in a few days. Use full strength, or nearly so, for Hay Fever. Cure permanent.

A Household Necessity.

No family should be without Foley's Colic and Diarrhoea Cure, for all bowel complaints. H. F. Foley, Prop., 2, E. of Main and North sts.

THE SULTAN'S SUBJECTS.

Extraordinary Variety of Races Over Which the Sultan Rules.

There are no fewer than seven main divisions of races in the European and Asian provinces. In Europe both the Greeks and Albanians are as numerous as the Ottoman Turks, each contingent numbering about 1,300,000, according to the best authorities. Constantinople itself has just as diversified a mixture as the kingdom generally, and only 385,000 of its 575,000 inhabitants are Mussulmans, the Greeks numbering 153,000, but in Asia there are twice as many Ottomans as all other races put together. The Turks proper consist of Ottomans, Yurouks and Turcomans. The names have something terrible in their very sound to us, but travelers unite in describing the Ottomans as honorable and humane men, although they can fight when it comes to blows. The Turcomans live a pastoral life, while the Yurouks are nomadic and therefore not easily subjected to law.

Although the Greeks and the Albanians are regarded as belonging to the same Greco-Latin race, the latter are for the most part Mussulmans. Some of the Albanians are Roman Catholics, and others are of the Greek church, and the two slightly divergent sects hate each other. But, whatever the form of faith, they prefer robbery as a means of livelihood to any other industry. At the same time they are of a fine physical type and make splendid soldiers, but they treat their women like oxen, and, although they dress in rich clothes of the fashion of the Scottish highlands, they have a horror of soap. In fact, it is said that they put on their clothes once for all and never take them off. The Greeks have not penetrated very far inland, but have scattered themselves along the coast of both European and Asiatic Turkey, where they are always on the lookout to put money in their purse. Together with the Jews and the Armenians, they do nearly all the trading and banking of the country and make a very good thing out of it.

Armenians and their exterminators, the Kurds, are both sprung from a Persian stock. The Kurds live in the mountains and are not precisely the kind of people one would care to set about reforming. Some say there are an even million of them; others say there are over 2,000,000. They keep the sultan in perpetual hot water, being very bad Moslems, but they are very enterprising, chiefly in slaying Armenians and stealing their neighbors' goods. When not thus engaged, they rear cattle, sheep and goats, and they differ in no way from their ancestors as described by Xenophon. Armenia was a portion of western Asia, between the Caspian sea and Asia Minor, but it has suffered the fate of Poland, and the Armenians are now almost as scattered as the Jews. They number about 2,500,000 and are intelligent people, with a particular talent for trade and banking.

The Semitic race has many families in Turkey. There are the Jews who, persecuted everywhere, took refuge in Turkey; the Greek church Maronites, who are the deadly foes of their neighbors, the Druses; the Druses of the Mohammedan faith, brave and temperate men, who take neither wine nor tobacco and who detest the Maronites; the Chaldeans, who are Christians of a sort; the Arabs, of whom there are 4,000,000 or 5,000,000 and who, though holding the same religious views as the sultan, are his inveterate enemies, and the Syrians.

Then there is the fine race of Circassians, who are differentiated from most of the other inhabitants by the fact that they work for a living; the Lazs, and the gypsies.—New York Ledger.

Long Ago.

The Count St. Germain, who appeared in Paris in the reign of Louis XV and pretended to be possessed of the elixir of life, had a valet who was almost as great as his master in the art of lying. Once, when the count was describing at a dinner party a circumstance which occurred at the court of "his friend King Richard I of England," he appealed to his servant for the confirmation of his story, who, with the greatest composure, replied, "You forget, sir, I have only been 500 years in your service." "True," said his master musingly, "it was a little before your time."—Household Words.

The Cravat.

The cravat was once the name of a great military nation, the Croats, or Cravates, of the Balkans. It was their fashion to wrap large shawls or pieces of cloth around their necks and shoulders. About the middle of the reign of Louis XIV he uniformed several regiments in the Croat fashion, with huge shawls about their necks. The fashion took, and the shawl diminished in size to the slight strip of cloth we still have with us.

Brazilian Balm

THE GREAT SOUTH AMERICAN REMEDY

Coughs, Colds, Croup & Grippe

LIKE MAGIO.

RADICALLY CURES CATARRH!

It clears the head of foul mucus; heals the sores and ulcers of the head and throat; sweetens the breath, and perfectly restores the senses of the taste, smell and hearing. Stops headache and dropping into the throat. Also destroys the germ which causes

HAY FEVER,
making a perfect cure in a few days. Never fails! No fatal case of LA GRIPPE ever known, where Brazilian Balm was faithfully used. It destroys the gripple germ and quickly removes it after bad effect.

INFALLIBLE IN ASTHMA, CROUP, BRONCHITIS, FLUORIS, PNEUMONIA, DYSPPEPSIA, RHEUMATISM, TYPHOID AND SCARLET FEVER, MEASLES, and any disease where there is inflammation, Fever or Congestion. Greatest relief in Consumption, ever discovered.

Cures a Fresh Cold in one day. Stops sneezing in the head and relieves deafness. As no infection is fatal in female troubles. For a cure of the head and throat, Burns like magic. For its Healing Power is Almost Miraculous. The Best Family Medicine in Existence!

60 Cent Bottle contains 100 Doses, or Two Weeks Treatment for Catarrh.
\$1.00 BOTTLE EQUALS THREE 60C. BOTTLES.

HOME TESTIMONIALS:
"Brazilian Balm cured me of inveterate catarrh which I had for over 20 years. It is the most wonderful triumph of medical science."—Gen. J. Parker Pades.
"In croup, cold and the worst form of gripple we have found Brazilian Balm invaluable."—Jas. W. S. Booth, D. D., Pastor Del. Ave. Bap. Ch.
"Mrs. Lore has used the Brazilian Balm and thinks it did her much good."—Hon. Chas. E. Lore, Chief Justice of Del.
"One bottle of Brazilian Balm cured a friend of mine of hay fever."—Thos. M. Culbert.
"I was very deaf for 10 years from catarrh. Brazilian Balm applied warm in my ears every day soon restored my hearing."—Mrs. John Sedden, Chester, Pa.
"It is the best thing for dyspepsia I ever saw tried."—Judge Edward Woodruff.
"I was worn almost to the grave with a raging cough that all the remedies and the doctors failed to relieve. It was cured with one bottle of Brazilian Balm. It shall be my doctor through life."—Mrs. J. Calloway, Pittsburg, Pa.
"I was fearfully crippled up with rheumatism, could not get my hand to my head. I took ten cent bottles of Brazilian Balm in six months. Am now entirely cured and as nimble as I was at forty."—Anson Burrell, aged 84.
"A lady in Cincinnati was so afflicted with asthma that during the winter for seventeen years she was unable to sleep lying down, was entirely and permanently cured with Brazilian Balm."—SOLD BY ALL DRUGGISTS AND DEALERS.

SAD NEWS

Received by James Dietrich of the Death of His Mother.

Mrs. O. E. Hurst Died Last Evening. Death of Wilbur Bressler and Little Bonnie Snyder—The Funerals.

James Dietrich, a well known tailor, received from Chillicothe last evening, a telegram announcing the death of his aged mother, who resided in that city. Mr. Dietrich left over the Ohio Southern this morning to attend the funeral, which will be held to-morrow. His wife and baby were already in Chillicothe.

MRS. HANNAH HURST.

Mrs. Hannah, wife of C. E. Hurst, of 229 south Main street, died at 5:30 o'clock last evening from bowel trouble, after three weeks illness. The deceased was born in Clark county, Ohio, and reached the age of 42 years 10 months and 13 days. To-morrow morning the remains will be taken, over the Ohio Southern, to Jackson Center, O., where the funeral services will be held and interment made.

BONNIE SNYDER.

Little Bonnie, the 7-year old daughter of Mr. and Mrs. F. M. Snyder, of 196 west North street, died yesterday afternoon, death resulting from spinal meningitis, after a painful illness of three weeks duration. The funeral cortege will leave the residence at 8 o'clock to-morrow morning and the funeral services will be conducted at West Cairo at 9:30 o'clock by Rev. Hagerman, of Elida. The remains will be interred at West Cairo.

WILBUR LEO BRESSLER.

Wilbur Leo, the little son of Mr. and Mrs. Frank Bressler, of 1118 St.

Johns avenue, died at 4:30 o'clock last evening from summer complaint, after a week's illness. The child was aged 4 years and two months. The funeral services will be held from Bethlehem church at 2 o'clock to-morrow afternoon and the remains will be interred in Bethlehem cemetery.

Coffee in Abundance.

Every market on the globe is glutted with coffee. The receipts of coffee from the interiors are wonderful. Thousands of bags every day, and every market is supplied to its utmost capacity. This over supply gives us an opportunity to make selections of some very fine drinking coffees. We are giving our customers finer grades than ever before which we are glad to see is appreciated, as our coffee business is larger than ever before by almost double. If you are having difficulty in getting coffee to please you, drop in and see us.

A RANK FAKE

Was the Story About the C. & E. Attempted Hold-up.

L. E. & W. IMPROVEMENTS.

Railroads Anticipate Big Business in Coal-Mining in Jackson County Return to Work—O. S. Passenger Conductors Dismissed.

Detective McCarty, of the C. & E., was in the city this morning. He brands the recently circulated story of an attempted hold-up of train 14 east of this city as utterly false, and is endeavoring to ascertain the identity of the person who started the story. Supt. Reynolds has also been making an investigation, and has learned from local employes that the papers publishing an account of the alleged attempted hold-up obtained the information from a very unreliable source.

NOTES.

Advertising agent McCord, of the C. H. & D., was in the city to-day. Conductor Haliday, of the C. H. & D., is taking a vacation of a few days.

General attorney Marshal, of the C. H. & D., was in the city last evening.

Operator Kendall has been transferred from the north C. H. & D. yards to Supt. Cory's office.

Brakeman Ed Rubel, of the L. E. & W. Minister branch, is laying off. Brakeman Cool is on his run.

Conductor Peck, of the L. E. & W., is laying off. Conductor Dennis Gouzen is in charge of his car.

Conductor E. H. Matlock has resumed charge of his own car, after doing considerable work on passenger.

C. H. Wilkins, assistant grand chief conductor of the Order of Railroad Conductors, will be in the city next Thursday.

Engineer Kleinhaus, of the L. E. & W., had switch engine 28 here from the Foster's yards last night, for slight repairs.

Conductor Tom Davis, of the L. E. & W., will go to his home at Tipton, Ind., Saturday to take the royal arch degree in the Masonic order.

The C. H. & D. had a special train of excursionists for Dayton this morning. The train was run from the North Baltimore branch of the C. H. & D.

Fred Turpin, of the Ohio Southern offices in this city, left this morning for Mobile, Ala., where he has accepted a position as cashier to the local agent for the L. & N. at that place.

John Bingham, of Supt. Cory's office, has been promoted to the position of fuel clerk, formerly held by Park Rouzer. Ted Sullivan takes the place made vacant by the promotion of Bingham.

Engine 58 and the rapid ballast unloader, of the L. E. & W., will be sent to Albany, Ind., to-night to do service with the work train at that point. Two bridges are to be filled in, which will furnish work for the crew for about six weeks.

Extra passenger conductor A. N. Ridenour, of the L. E. & W., is on passenger conductor Thomas Hennessey's run at present, the latter being off duty on account of illness. When Mr. Hennessey returns to work Mr. Ridenour will take charge of passenger conductor Hooper's run, and the latter will take a few weeks vacation.

Yesterday every passenger conductor on the O. S. R. R. was informed that his services were desired no longer by the company. No exceptions were made and conductors E. Dungan, Chas. Flemming, William Castello, J. L. Hunter and J. R. Grimsley are now seeking employment elsewhere. No cause was assigned for the dismissal.

F. E. Benner, G. Willros, F. Glaze, J. P. Whitlatch and Van Oren, who have been freight conductors were promoted to fill the vacancies, and yesterday made their first regular runs as passenger conductors. S. Oren, J. Goodie, H. G. Rimsley, H. Davis and H. Turvey, formerly brakemen were promoted to the positions made vacant by the promotion of the freight conductors.

FROM SUMMER COMPLAINT

Nine-Months-Old Don LaVell Died this Morning.

Don, the nine-months-old son of Mr. and Mrs. LaVell, of 682 east Elm street, died about 10:30 o'clock this morning, from summer complaint, after two weeks' illness.

Funeral services will be held from the residence at 9 o'clock Thursday morning and the remains will be interred in Woodlawn cemetery.

J. E. SUMMERS,

Tailor and Draper, for your fall suit and overcoat. 140 N. Main street. 4 7c

The new 3-piece suit.

To appreciate something metropolitan. This has been clearly demonstrated by the way they are patronizing Michael's Juvenile department and the many compliments showered on the store for keeping "up-to-date" children's wear.

No use sending to cities for novelties; you'll find them at

The new 3-piece suit.

MICHAEL'S.

CATHOLIC KNIGHTS.

State Convention Now in Session at Hamilton.

Rev. A. R. Manning and George Felts, of this City, in Attendance—Grand Street Parade this Afternoon.

The convention of the Catholic Knights of Ohio, which opened at Hamilton, to-day, is being attended by Rev. A. E. Manning and George Felts, members of the branch of this city. The convention was formally opened at 10 a. m. with the celebration of solemn high mass coram episcopo by Rev. Louis Tieman, of St. Mary's church, Cincinnati, assisted by Rev. H. Proppermann, of St. Peter's church, Hamilton, and Rev. F. Kessing, of St. Leo's church, Cincinnati. Present in the sanctuary are all the bishops of the state of Ohio namely: Most Rev. Archbishop William Elder, Right Rev. Ign. Horstmann, Bishop of Cleveland, Ohio, and Right Rev. J. A. Waterson, Bishop of Columbus, Ohio. The sermon will be delivered by Archbishop Elder. After mass the business session was opened, at which Mayor Bosch, of Hamilton, welcomed the visitors. The feature of the day was the grand street parade, which took place at 2 p. m. to-day. The members of the C. K. of O., of Hamilton, have offered a number of prizes for the branches outside of the city being represented the strongest in the parade. The first prize consists of \$25, second of \$15 and third of \$10. To-day's session will close with a grand complimentary entertainment at 8 p. m., at which addresses will be made by archbishop Elder, bishops Waterson and Horstmann, Fathers Albrink, Tieman, Dr. Wenning and others.

Tuesday's session opens with the celebration of a solemn mass of requiem for deceased members of the order at St. Joseph's church, after which the delegates will meet in business session, elect officers for the ensuing year and close the work of the convention.

ABOUT PEOPLE.

Who They Are, Where They Have Been and Are Going.

L. Reichelderfer left this morning for Sandusky.

Miss Rose Newman has returned from Brooklyn.

G. Pontius, of Geneva, Ind., was in the city to-day.

Mrs. Alex Frankel leaves this evening for Philadelphia.

Mrs. Lizzie King and Miss Louise Shuler spent Sunday in Detroit.

E. L. Davis and W. Smith, of Ada, are guests at the Cambridge House.

Fred Cook returned home last evening, after touring Indiana on a bicycle.

Miss Edith Donnell, of Lancaster, is the guest of her aunt, Mrs. W. H. Mattingly, of north Main street.

Misses Ollie Good and Pearl Keyes spent Sunday in Detroit, the guests of Mr. and Mrs. Charles DeVoe.

Ed Maxwell has returned to the city, his summer's engagement at Cheataqua, N. Y., having expired.

Phil Blume was in the city this morning on his way to Deshler, where he starts the races at the fair there this week.

E. D. Foltz and niece, Miss Estella Katzenmeyer, of North Baltimore, are guests of Mrs. T. H. and G. W. Foltz and families.

Mr. and Mrs. Elmer Crossley, returned from the reservoir last evening. Mr. Crossley claims to have had great success with the minnow and brought home a large number of elegant bass.

Prof. DeRupert leaves to-morrow morning for Piqua to give the first lesson of a course in French to a large class organized by Mrs. W. P. Orr. The professor will hereafter spend two days of each week in Piqua.

Try Grain-O! Try Grain-O!

Ask your Grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich, smooth, brown color of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 4c the price of coffee, 10c and 20c per package sold by all grocers.

FOR BIGAMY

C. L. Leon, of New York, Arrested This Afternoon.

MARRIED A GOMER LADY,

Who Has Since Discovered That He Has a Wife in Florida—His Second Wife Is a Sister of Evan Evans, of This City.

At 2 o'clock this afternoon chief of police, Capt. Bell, and detective Roney arrested Charles L. Leon, of New York, upon authority of a telegram from Columbus, Ohio, charging him with bigamy. The telegram was received here at 1:40 o'clock and was sent by chief of police Pat Kelly, of Columbus, who requested the arrest and detention of Leon, and announced that the Columbus police department held a warrant for his arrest upon a charge of bigamy.

Captain Bell ascertained that Leon was visiting at the residence of Evan Evans, on east Market street, and going there in company with detective Roney, he placed the man under arrest and landed him behind the bars at the county jail. Leon submitted to arrest very coolly and did not seem surprised when he learned what the charge against him was. When asked by Capt. Bell what he knew about the charge he replied simply, "more than you do," and refused to say more.

MARRIED A GOMER LADY. Leon is a stylish man of rather prepossessing appearance. According to his business cards he hails from New York City and is a scenic artist and decorator. Several months ago he secured a contract for a large amount of work at Columbus and last week he married in that city Miss Evans, formerly of Gomer, this county, and a sister of Evan Evans, of the Ewing hardware store, this city. Miss Evans and her mother have been in Columbus for some time, and there Leon and Miss Evans and Leon met and last week were married.

Leon came to this city evidently to make the acquaintance of his new brother-in-law, and since he came here his wife and mother-in-law in Columbus made some startling discoveries concerning his past life. They found a letter of 12 pages from another wife of Leon's, who is in Florida, and by secret correspondence they obtained information which satisfied them that the young bride was the victim of a bigamist.

Miss Evans is of one of the most prominent Welsh families in this county and has many friends and acquaintances in this city. An officer will arrive from Columbus to-night and take charge of the prisoner.

SCHOOL BOOKS

Are Not Owned by Local Booksellers.

Editor Times-Democrat:

In the issue of this morning's Gazette, I notice a card under the heading of "Larceny Endorsed," signed by one E. E. Linn, which he well names a tirade.

The price of a copyright school text book filled with information gathered by educators from many sources, and mechanically a first class book, should not and cannot be compared with a novel, be it copyrighted or a cheap reprint. The first is used month after month, the user thereof gaining knowledge, while the other at best, as a rule, is only good for the purpose of whiling away an idle hour.

Had Mr. Linn read the Ohio school book law and studied it carefully then, I am very certain, he would have thought twice and his "tirade" would never have seen the light of the day. This law fixes the price each board of education shall pay for the books adopted by it for its "course of study," and further, limits the profit of the agent storing and selling the books, to 10 per cent. Any fair minded citizen who will consider the matter for a moment will agree that this is not an excessive profit, and justifies the card of the agents to sell "for cash only."

Mr. Linn practically charges that some one connected with the schools is accepting bribes. If he will prefer charges and substantiate them by evidence, we will assure him that such member will be expelled and prosecuted to the full extent of the law whether the bribery be in connection with the school books or any other matter under control of the Board of Education. If Mr. Linn knows of such bribery and refuses to accept this invitation, then he is as guilty as the acceptor of bribes by becoming a party thereto as an "accessory after the fact."

One point of evidence is better than bushels of indiscriminate accusations. Yours truly,

F. G. BORGES.

OIL AND GAS.

INCREASED ATTENDANCE

Will Necessitate More Colonies—Mr. Gault Tenders His Resignation as Architect—Called Meeting Declared Illegal.

The school board met last night in regular session, and all members were present except Messrs. Townsend and Borges.

The following petition was received: To the President of the Board of Education:

We recommend the appointment of M. J. Sullivan as a member of the school board from the First ward, Lima.

W. COFFEY,
J. M. MADIGAN,
L. J. CONLEY,
L. J. STUBBER,
E. TEHAN.

Citizens of the First Ward. The application was received and placed on file.

The resignation of Miss Maude Shaffer was received and accepted.

The bond of Mr. Spyker was received, and the signatures all being satisfactory, the same was accepted.

A statement was received from Leach & Leach, architects for the north Jefferson street building, stating that \$500 of the entire amount would be due Sept. 13th. An order for that amount was ordered drawn and made payable to Mr. Spyker on Sept. 13th.

The application of E. B. Finney for janitor was received and placed on file.

The building and repair committee was given power to purchase what gravel was necessary to improve the south Pine street school yards.

The supply and repair committee recommended that the board purchase 500 desks from the U. S. School Desk Company of Sidney. The report was received and accepted.

Superintendent Miller said that a misunderstanding had been made by many parents who were under the impression that school was not to begin until next Monday.

The enrollment yesterday was 2,905, or 213 less than the entire entire enrollment of last year. The enrollment of the high school was 195, or three more than the enrollment of that department last year. There are at least ten more pupils who have not yet entered, but who intend to after they have passed the examination. The room is badly overcrowded, as the total number of seats in the room is only 150. It is necessary that there be more room for the high school. The probabilities are that the A grammar room will be fitted up for high school pupils. This will necessitate the use of another room or colony somewhere outside of the east building. All the buildings are more crowded than ever before, and it is a difficult task to properly care for all the pupils.

The enrollment yesterday in the various buildings were as follows: East building, 761; west building, 553; south Elizabeth street building, 351; south Pine street building, 399; Reese avenue building, 155; Grand avenue building, 263; west Spring street building, 244; Shawnee street building, 58; north Jefferson street building, 88; Kibby street building, 33; total, 2,905.

Mr. Gault, the architect for the south Pine street addition, was present and was given permission to explain the difficulty that had arisen between him and the contractor. He claimed not to be responsible for any blunders and tendered his resignation as architect. This was accepted. He had presented a bill of \$192 for services rendered. This was referred to the law and contract and building and repair committees to report at the next meeting.

The question as to the legality of the meeting at which Mr. McKinney was allowed pay for extra work that was required at the south Pine street addition came up and was discussed at length. It was claimed that neither the president nor two members had called the special meeting and on these grounds it was illegal. The chair finally ruled the meeting an illegal one.

TALES OF THE TOWN.

All clothing and shoe stores will be open to-morrow evening.

The schools were dismissed this afternoon on account of the extreme heat.

John Garvey, of 218 west Kibby street, has removed his family to Goshen, Ind.

The high school enrollment this noon was 205. This is 55 more pupils than there are seats in the high school room.

The marriage of Anthony Lyons, of this city, and Miss Cunningham, of Cincinnati, has been announced and will take place about Oct. 1.

The Home Missionary Society of Trinity church will meet at 2 o'clock to-morrow afternoon with Mrs. F. A. Boone, No. 6, Boone block. A full attendance is desired. Election of officers.

LIMA LABORERS

Are Not Getting Their Portion of Employment

IN THE PAVING WORK.

City Council Takes a Hand in the Matter—Mayor Baxter's Report—Two City Contracts Forfeited—Other Business.

The city council met in regular session last night with president McVey in the chair and the following members present: Harmon, Robbins, Warner, Koch, Stephens, Miller, Chapin, Standish, Snyder and Pannypacker.

Minutes of last meeting were read and approved.

Elizabeth street property owners, just north of Kibby street, petitioned for the right to grade their street at their own expense. Referred to the street committee.

Agent for A. H. Walber, of Cincinnati, submitted several orders on the old Spring street stoning fund amounting to \$7,253, which were unredeemed for want of funds. The matter was referred to the finance committee.

Reports of the sewer and sidewalk committees were received and adopted.

The finance committee recommended the payment of bills aggregating upon the various funds as follows:

Fire fund	48 69
General fund	284 14
Light fund	1,237 50
Police fund	78 28
Street fund	561 40
Water fund	685 57
Machine shop interest	3,000 00
Harrison avenue improvement	1,081 00
Poor fund	115 43
Total	\$7,052 72

Upon motion all bills were allowed.

MAYOR BAXTER'S REPORT.

The following report was submitted by mayor Baxter: The Honorable City Council.

GENTLEMEN:—There are a number of matters seeming to me of enough special importance, to render it a duty to call your attention to them, in ample time, that they may be remedied.

First—The curb line on north Main street as at present located leaves the telephone poles protruding six inches into the gutter.

Second—Nothing will ever put an end to the indiscriminate planting of poles, excepting an ordinance or resolution requiring permits to be obtained whenever a pole is erected, changed or altered in any matter whatever. Two lines are being placed at this time with little regard to anything.

Third—The state law regarding the cutting of weeds is a cumbersome affair and difficult to apply. A simple ordinance should be passed on this subject.

Fourth—The opening of streets giving an outlet to the country is of great importance. We are being blocked in every direction. Findlay street is a fair sample. Pretty soon the Schwab lot will be bought by someone and a house built on it, and thus Metcalf street blocked off, the same as Elizabeth street is now.

Fifth—We have \$3,600 in the market place fund. This is money enough to buy a vacant lot in every ward in town to be used as a hay, wood and grain market space.

Sixth—Water is the best cleanser

GREATER THAN EVER

The Allen County Fair Promises to be This Year.

CARPENTERS ARE AT WORK

Building Additional Stalls, the Old One Being Already Overcrowded—Great Race Hooked for One of Friday's Events.

The annual Allen county fair opened to-day and the outlook is very encouraging to the anticipations of the fair association for the most successful, at least so far as the list of entries, daily programmes and excellent attractions are concerned, in the history of the county. One thing is certain—the entry list in the stock department was never larger. All of the old stalls, many of which have heretofore remained unoccupied, are already filled and overcrowded, and yesterday a corps of carpenters was employed to build additional stalls in order that all of the entries may be comfortably and suitably accommodated.

THE HORSE RACES.

In the track events the programme will also eclipse all former years. A few of the events are being filled to-day and the list already filled is alone a big attraction. Wednesday, to-morrow, there will be a three-minute class trot for a purse of \$150, and six or eight fine specimens of horse flesh were entered almost a week ago.

For Thursday in the entry lists two races have already been completed. The first will be a 2:35 pace for a purse of \$150, and a 2:24 trot for a purse of \$200. Classes 5 and 6 for Friday's events will be a 2:40 trot for a purse of \$150 and a 2:25 pace for a purse of \$200.

BICYCLE EVENTS.

The management this year has manifested the fact that it is thoroughly up to date by placing a list of bicycle races on the programme of track events for Thursday and Friday. Thursday there will be a one mile novice, a half mile open and a two mile handicap, with prizes aggregating \$70 in value. Friday there will be a mile open and a five mile handicap with \$45 worth of prizes for the winners.

A SPECIAL EVENT.

Since the programme of track events was printed the management has made arrangements for a special race to add to the attractions for Friday. The special event will be a 2:20 pace for a purse of \$100. There must be not less than four entries and three to start in this race, but there will be no trouble in securing twice the required number from the field that is already on the grounds.

The fair will certainly be more successful this year than any previous. Friday more money was received for entries and tickets than on any five days preceding any county fair for years.

WHEELING TO-MORROW

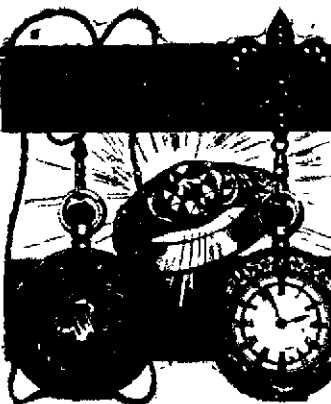

The Lima Boys Will Try to Win Another Game from a Tri State League Team.

To-morrow afternoon the Wheeling, W. Va., Tri-State League club will be in the city and play captain Murray's men. A good game assured and should be well patronized. There is a movement on foot to have Lima in the Tri-State League next year and this question depends greatly upon the attendance at the game to-morrow and the one next Sunday with Springfield. Harper will probably pitch and the Lima boys will be in the game at all times. The club went to Van Wert this morning to play the club at that place this afternoon.

W. H. Justice, captain of the Wapakoneta club, has been signed with the Wheeling club. He passed through Lima this morning on his way to Toledo to join the club. He will play second base. He is a good clean ball player and there is no doubt that he will be successful in his new company.
